EXPERIENCE

Front-End Web Developer

DDTECH

📅 05/2021 - 07/2022

- Developed the user interface for a Motors website using Next.js.
- Built the user interface for a tender system name "Emlak Katilim" using React.js.
- Designed and prepared PDF forms to connect with web forms for seamless integration.
- Translated UI design wireframes into functional, visually compelling code.
- Configured web forms to integrate with a biometric signature tablet application.
- Contributed to over 10 different projects focused on biometric signature technology.
- Utilized Jira software to track and manage daily tasks effectively.

Foreign trade import and exports

Keskin Kimya

📅 10/2020 - 02/2021

- Collaborated remotely with a team under challenging conditions.
- Prepared all necessary documentation for the export process.
- Communicated with clients via email to follow up on orders and ensure customer satisfaction.
- Utilized the Canias ERP system to generate customer reports and monitor order status.
- Leveraged research skills to identify potential customers and expand the client base.
- Coordinated with production departments to oversee the production process and ensure timely delivery.

Position UI Front-End Web Developer

Nawafez Software

📅 08/2010 - 09/2015

- Prepared web design proposals for clients, tailored to meet their specific needs.
- Developed new user-facing features using Microsoft Visual Studio.
- Translated UI/UX design wireframes into code to create functional and visually engaging elements of the application.
- Collaborated effectively with team members and stakeholders to achieve project goals.
- Consolidated team contributions into a polished final deliverable.
